

A Paradigm Shift in Minimally Invasive Surgery

About Us

An exclusive provider of innovative, minimally invasive medical laser systems and consumables for multiple medical disciplines, principally in the field of urology. Solutions also include clinical education, service, support and maintenance.

Focus on:

- increasing the availability of services for patients
- enhancing the quality of patient care
- improving operational efficiencies
- reducing total operational costs

Our lasers target these issues:

Benign Prostate Hyperplasia (BPH), urinary stones (bladder & kidney) and incontinence.

CAPITAL STRUCTURE

(As of March 2019)

Share Price	\$0.20
52 Week High/Low	\$0.65/\$0.20
Market Cap	\$3.9 M
Shares Outstanding	19.55 M
Warrants & Options	4.3 M
Fully Diluted	23.9 M

Highlights

- ASTI's state-of-the-art proprietary FDA approved holmium laser fiber for kidney and bladder stones gaining momentum in the market as a true innovation in laser lithotripsy.
 - Production is scheduled to begin in the first quarter of 2019. Future consumable sales will grow as this will be the only fiber optic which will be locked and matched to the high power HYPHO Holmium laser.
- ASTI's flagship laser for Benign Prostate Hyperplasia continues to grow market share with multiple product evaluations scheduled at private practices, surgical centers and university teaching hospitals across the country.
- Multiple ongoing negotiations with leading manufacturers and distributors of surgical instruments to the urology/gynaecology marketplace in the US.
